

Pitfall Trap Data Log

Throughout the week keep a log about the insects you see. You can record in the morning or multiple times a day. If you are able, take photos of the insects you see inside and outside of the cup. When taking a photo be sure to click on the item you are trying to take a photo of to focus the camera. Keep notes of the types of insects you see and record your observations.

| Date | Time of Day <i>Morning, Afternoon, Night</i> | Notes of what you saw <i>Examples. Does the insect have wings? What color is it? How does it move, crawl or jump?</i> |
